Firemen Vote To Buy \$15,764 Mack Fire Truck; Vote \$1,000 For Rest Rooms At Rec. Field

Members of the Gettysburg fire company voted unanimously Wednesday night, at their regular monthly meeting at the fire engine house, to purchase a new 750-gallon Mack fire truck and pumper, at a cost of \$15,764.50, and approved a contribution of \$1,000 to the Gettysburg Recreation Association for the construction of rest rooms at the recreation park.

The apparatus committee, which had considered prices and specifications on four fire trucks, Mack, American LaFrance, Oren and Maxim, made no recommendations for the Mack or the LaFrance. The committee had previously eliminated Oren and Maxim from consideration.

Original specifications called for a 500-gallon per minute pumper with a 500-gallon booster tank and two booster line hose reels. After prices had been submitted the committee obtained quotations from Mack and American LaFrance on a 750-gallon pumper. The two trucks demonstrated here were 750-gallon pumpers. Price of the American LaFrance was quoted at \$16,418.50.

Vote Two Donations

The motion to purchase the Mack apparatus was adopted without discussion and by voice vote.

The donation to the recreation association was recommended by James S. Shenk, co-chairman of the committee for the celebration of the anniversary of the Battle of Gettysburg, an event sponsored and conducted by the fire company for the past three years.

Mr. Shenk recommended that the recreation association be given \$500 for the fire company's use of the recreation park for the 1950 celebration and an additional \$500 if granted use of the field this summer. The celebration is scheduled June 29 and 30 and July 1, 2, 3 and 4. The board of directors of the recreation association meets next Tuesday night.

Roof Is Donated

Sewer connections for the proposed rest rooms will be made by the borough, firemen were told, by extending a sewer line from West street. Mr. Shenk said that the work of building the sewer and the new rest rooms would be completed in time for the battle anniversary program. If the toilets are built, Joseph E. Codori, manager of the Citizens Oil company, said his firm will roof the building. It is planned to have two toilets for men and two for women, housed in a concrete block building. A grandstand may later be built over the rest rooms, according to the plans, Shenk said.

Gives \$25 To R. C.

The firemen voted a donation of \$25 to the Red Cross, and referred to the board of officers for report at the next meeting a request for a contribution from the Gettysburg Softball association. The latter organization, in a letter to the fire company, said it contemplated erection of bleachers at the softball field at a cost of approximately \$1,900 if the money can be raised.

The application of Edgar Leroy Sheldon, 127 West High street, for membership in the fire company was referred to the investigating committee. Mr. Shenk reported that a piano had been donated to the company by Earl Buohli.

EIGHT QUARTETS ARE ENTERED ON ANNUAL CONTEST

Eight quartets, all sponsored by Lions clubs, will take part in the second annual Male Quartet contest to be held in the Memorial auditorium at the South Mountain Fair grounds, near Arendtsville, Friday evening, April 20.

Three of the quartets, the Harmonaires, of York Springs; the Harmony Chasers, of Waynesboro, and the Lions quartet, of Elizabethtown, won first, second and third places, respectively, in the first contest held a year ago by the Upper Adams County Lion club, which sponsors the annual event.

Other competing quartets will include a Gettysburg college group sponsored by the Gettysburg Lions club; the Paper Makers from Spring Grove; the Mechanicsburg Lions quartet; the Crystal Four from Littlestown; and the Moss Creek quartet of Chambersburg.

\$210 In Prizes

Al Ross, of Radio Station WBAL, who was master of ceremonies last year, will also be the MC this year. In addition to the competing quartets the program will include singing by a ladies barber shop quartet of York, known as the "Prestidigitators," and a concert by the Biglerville high school band.

The band concert is scheduled from 7:30 to 8 o'clock, preceding the quartet contest.

A prize of \$50 will be given for the first-place winner, \$35 second, \$25 third and \$20 will be given to each of the remaining groups.

Pipe Line Break Puts Oil In Creek

Oil or gasoline, believed to have flowed into Marsh creek north of Seven Stars from a broken pipe line, today covered the creek with a scum which forced the Gettysburg Municipal Authority to special measures to prevent the oil from getting into the borough's water supply.

John Long, manager of the authority, said a pumper is being used to keep as much oil as possible from the water works intakes, and that heavy treatments of carbon were being used in the water supply to remove the taste. Increased dosages of chlorine were also being placed in the water. Mr. Long said that it is "entirely safe" for drinking purposes, however.

First reports of the oil on the creek were received about 9:30 o'clock this morning. The oil scum reached the pumping station at 10:30 o'clock. Mr. Long said that after the oil has ceased to flow into the creek it would take eight to ten hours to clear the creek at the intake.

All spring coats and suits reduced for clearance. The Leader Store, 108 Broadway, Hanover.

The Littlestown concern was established in 1924.

"We are located in a section noted for the manufacturing of fine furniture, along with Grand Rapids, Rockford and Jamestown," Mr. Cairns said. He added that "the greater proportion of our staff has been with us many, many years. Some have been on the payroll for over a quarter of a century."

"Many of the machines found in our factory," Mr. Cairns continued, "are of a type that cannot be purchased, for they are of special design and some have been designed and built in this plant. The cost of (Continued on Page 2)

Lind Disapproves Of Truman Action

Congressman James F. Lind, of the Adams-York-Franklin district, has voiced public disapproval of President Truman's dismissal of General Douglas MacArthur.

Contacted in Washington, Congressman Lind made this statement: "I have been requested to make a statement on the removal of General MacArthur by President Truman. I am not in sympathy with the President's action in this case. I think that General MacArthur should have been called back before the Joint Chiefs of Staff prior to any action, and his side of the story evaluated."

"General MacArthur is a soldier first and, as such, has superiors. I am sure the situation could have been resolved satisfactorily. I have always held General MacArthur in high esteem because of his devotion to duty, his outstanding military leadership and benevolent administrative capacity."

Congressman Lind declined to comment on the proposal to bomb Manchurian bases or the use of Chinese Nationalist troops at this time.

Governor Says Dismissal Of Doug. Is 'Unhappy Situation'

Harrisburg, April 12 (AP)—Gov. John S. Pine says he "regrets" that Gen. Douglas MacArthur had to be relieved of his command. He termed the action an "unhappy situation."

At the same time state commanders of veterans' organizations generally upheld President Truman's ouster of MacArthur.

The comments from the chief executive and commanders occurred while a resolution was being introduced last night in the House calling for that body to "censure" the President for his action.

In Gettysburg, three veterans' posts invited MacArthur to address the Memorial Day observance in the National Cemetery on May 30. The organizations were American Legion, Veterans of Foreign Wars and Sons of Union Veterans.

In his statement, Pine said: "From my reading of the so-called MacArthur episode, it appears to me that there has been an unfortunate and confusing conflict of prerogatives between the diplomatic and the military. In my opinion, neither should encroach upon the other."

YOUNG FARMERS, VETERANS HEAR TALK ON SAFETY

Safety on the farm was outlined Wednesday evening by Samuel L. Horst, state farm and home safety director of the state department of public instruction, in a talk before 90 members of the veterans' agriculture classes and young farmers groups held at the Biglerville auditorium.

"If I offered you a bottle, with 300 pills in it, and assured you that 299 were harmless and only one deadly poison, none of you would take a pill and eat it. Yet all of us daily take chances with the odds much more against us than that," Horst said.

"One gallon of gasoline is as explosive as 160 sticks of dynamite. If we had 160 sticks of dynamite we would handle them with extreme caution, and would place them for safekeeping at some place far removed from our homes or barns. Yet, you go on farms and see five gallon cans of gasoline sitting around anywhere, in the houses, in the barns and outbuildings. Some only half full which is an even more explosive situation, some sitting where the sun and heat beat upon (Continued on Page 2)

Doug May Fly Home Next Week

Washington, April 12 (AP)—House Republican Leader Martin of Massachusetts said today "there is a possibility" General Douglas MacArthur may fly to the United States next week to address Congress.

Martin made the announcement to newsmen following an early morning session of the House Republican Policy committee.

"There is a possibility," he said, "that General MacArthur will fly back next week and will be available to address Congress sooner than the three weeks mentioned earlier."

Original plans, Martin said, were for the deposed general to return from Japan by ship.

Angry At Truman

Republicans, furiously angry at President Truman for firing the general, are sponsoring a resolution inviting MacArthur to address a joint meeting of the Senate and the House.

The House Rules committee will consider the resolution tomorrow and Martin said he is confident both the committee and the House will approve it. He said he doesn't expect administration Democrats to fight the invitation proposal.

As for the Senate's attitude, Martin said he didn't know.

DEATH CLAIMS AGED MINISTER, COUNTY NATIVE

Accepting a call to Grace Re- (Continued on Page 2)

Tokyo, April 12 (AP)—American warplanes shot down five enemy jets, probably destroyed two more and damaged 15 today in two roaring air fights over northwest Korea.

All American planes came safely out of the battles.

One of the thunderous clashes was the biggest jet fight in history. It involved 152 jet planes—80 Russian-made MIG-15s and 72 American F-86s and F-84s—and about 40 B-29 medium bombers.

On the ground, two Chinese divisions pulled back suddenly and mysteriously on the central front. American troops pushed cautiously ahead in their wake against no opposition. Staff officers said they were puzzled by the enemy withdrawal.

The two Red divisions Wednesday bitterly opposed Allied crossings of the Hantan river south Chorwon. They fought from the craggy hills north of the river.

Advance 26 Miles

But they broke contact Wednesday night.

South Korean troops on the east coast stabbed 26 miles into North Korea in the deepest Redland penetration of the current United Nations drive.

In history's biggest jet battle, the 80 MIGs swooshed out of Red Manchuria against 72 U. S. jets flying cover for 30 to 40 U. S. B-29 Superforts. The B-29s dropped 300 tons of bombs on the vital railroad bridge across the Yalu river between Antung, Manchuria, and Sinuiju, Korea.

The American jets shot down two MIGs, probably destroyed two others and damaged 13.

A B-29 gunner brought down a third jet. B-29s also damaged another Red jet.

15-Minute Battle

Two B-29s were damaged but landed safely in Korea. The others returned to their Japanese or Okinawa bases.

The second air battle flared later Thursday in the center of "MIG alley" between Sinuiju and Sinanju. In this action 15 Communist jets attacked 12 American Sabre jets.

The Sabres shot down two Red jets and probably destroyed another. The fight raged for 15 minutes from 34,000 down to 4,000 feet altitude.

Other Allied planes in 672 flights reported more than 500 Reds killed or wounded Thursday, the greatest claim against troops in the past three weeks. The fighters strafed troop columns of 5,000 soldiers near Anak and 1,000 Reds near Chaeryong.

Carve 2 Beachheads

In the ground fighting, the Allies used bayonets and hand grenades in carving out two small beachheads Wednesday on the Hantan river north bank.

The Reds tried to halt the United Nations advance with heavy mortar and grenade fire.

The stiff Communist opposition led officers at first to believe they had run into the main enemy line. The Reds have jammed 18 new divisions into North Korea.

Heavy fighting also swirled near Yangku on the southeastern edge of the great Hwachon reservoir. Tight censorship obscured the details.

South Korean troops on the east coast swept northward to the town of Kansong, 26 miles inside Red Korea. It was the deepest penetration in the current Allied offensive.

Reds Withdrawing

The South Koreans saw Reds withdrawing to the north. The Republican soldiers later returned to their bases south of Kansong.

Allied troops advanced from the Imjin river in the west practically all along the front to the Sea of Japan east coast. That front now is almost all in North Korea.

The troops are under the temporary command of Lt. Gen. Frank W. Milburn. Milburn is acting commander of the U. S. Eighth Army until the arrival of Lt. Gen. James A. Van Fleet from Washington.

Van Fleet succeeds Lt. Gen. Matthew B. Ridgway who flew to Tokyo Thursday to replace General MacArthur as supreme commander.

695,000 Reds Gather

The Reds battling the Allies south of Chorwon may be the outpost of a concentration of 695,000 Communist troops gathered in the central mountains for a possible all-out smash at the Eighth Army.

Air and artillery bombardment has destroyed Chorwon, one point of a triangular area holding the Red manpower mass.

Much of the credit for destruction of Chorwon went to Arkansas National Guardsmen who manned "Long Tom" field guns. The big 155mm. guns had been hauled right up to the

SELECTIVE TV OF GRID GAMES BEING PLANNED

New Haven, Conn., April 12 (AP) — College football probably will be televised on a selective basis next fall while the colleges take soundings to find out the effect on attendance.

The National Collegiate Athletic Association TV Steering committee evolved a plan which now goes to the N.C.A.A. National committee under which one game would be televised each Saturday in each national area.

The announcement by the committee cleared up uncertainty that developed after the N.C.A.A. called for a moratorium on football television.

The colleges made it plain they must maintain football gate receipts to keep their athletic programs going.

Attendances Hurt

"Live television has apparently had a serious effect on game attendance, and the loss of such attendance can only result in the loss of the vital financial support for the entire program of physical training and competitive athletics," said Tom Hamilton, of Pittsburgh, in his statement on the TV proposal. He is chairman of the TV committee.

College games were widely televised last fall, and some people blamed TV for a decline in gate receipts. It was argued that small college games in particular were hit by the network coverage of such famous teams as Notre Dame, Pennsylvania, and Army.

After the N.C.A.A. called for a curb, the issue bounced into politics. Bills were proposed in Illinois and Oklahoma requiring the state universities to televise their games. The universities replied that under the N.C.A.A. mandate other colleges would refuse to play them.

Adoption of the proposal by the N.C.A.A. National committee seems certain. Probably this arrangement will satisfy the Justice department which raised the question of possible anti-trust law violation if television were shut off completely.

The contributions liquidated a debt of \$1,742.94 on improvements to the church and purchase of the organ. A power lawn mower was purchased with the surplus of the contributions.

The Rev. H. E. Krone, pastor, reports there remains about \$900 in the treasury. He expressed his appreciation today to all who took part in clearing the church debt.

He demonstrated how gasoline and kerosene become more explosive when heated and then said, "You can go into hundreds of homes and find a can of kerosene sitting behind a stove, well heated by its position. Aand to make matters worse people use that hot kerosene to help light kitchen stove fires."

"All of us know the danger of electricity. Yet, in how many homes will we find the washing machine placed in a damp cellar room, on a concrete floor, and attached to a hanging metal socket with a pull-chain. There you have the lady of the family standing in a puddle of water, with her hands wet from washing, reaching up to pull the metal chain on the electric socket. The wonder is not that so many are seriously injured or killed, but that so few are injured when so many are so foolish."

The speaker was introduced by Richard C. Lighter, supervisor of agricultural education for the county who presided at the meeting.

machinery in a woodworking establishment varies. One machine may cost comparatively little and then again it is not unusual for a machine to cost \$25,000 or upward. It is this machinery that produces cabinets that are superior to those made by a carpenter, or in a small woodworking establishment. It is precision work.

"Our work is divided into two sections, the custom built division is where we supply kitchens to fit the home, the individual and the pocket-book. The cabinets are designed for you and your requirements and are installed by carefully trained people and made an integral part of the house. The other major division is the portable line of merchandise. These cabinets are movable and include such other items as china cabinets, wardrobes, dressers, chests of drawers, etc.

Equipped Many Homes

"To give you some idea of the scope of our business—within a 15-mile radius of the Washington monument in Washington, D. C., we have equipped nearly 50,000 homes.

"Keystone offices are located from Maine to Florida. We have shipped our cabinets as far away as the islands of the South Pacific and to Liberia and Poland. In some instances these kitchens have been installed in our United States embassies in various countries."

Mr. Cairns described the "Kitchen of Today" as the one in which all available space is used to the best advantage.

"It is one in which there are no corners nor apertures for dust and dirt to collect. It is sanitary—not a breeding place for germs. It is one in which all appliances have been placed in a confined working area so that few steps are required to perform the necessary duties of a kitchen. It is one in which the labor-saving devices have been installed to eliminate the drudgery of daily work. It is one in which adequate and proper lighting has been installed.

Fit Individual Needs

"It is one that suits your individual needs, requirements and personality. It is one that has beauty, color and creates a feeling of happiness. It is one that provides the proper coloring and background for you as an individual. In other words it must be like the frame of a picture, you, the individual, being considered the picture.

"It may be a simple kitchen used only for the preparation of food, or it may be a room that provides eating space as well as an all-purpose room and laundry.

"It may be ultra-modern or again it may be Early American or it also may be French Provincial—it may be large—or it may be small—but it must have available working space, the newest of conveniences and be adequately and scientifically planned by one who is trained in the art of kitchen designing and installation.

Many Kitchens Ruined

"Many people have had their kitchen ruined by not having a person who is trained in that specific type of work. That is why our salesmen are not the usual run of the mill type but are engineers and architects as well as designers—devoting their entire time to just this one and only type of work. They are truly kitchen specialists. Our salesmen are trained to advise you just what accessories you require in your kitchen.

"The cost of remodeling a kitchen depends on the individual. We have but one quality of merchandise and that one quality prevails whether a person purchases a small or a large kitchen. The cost depends on what you desire and what you yourself wish to spend. It may be a small amount or a large one but the one factor to keep in mind is this—do not spend a large sum of money remodeling the actual structure of your kitchen such as changing ceilings, walls, doors and windows unless it is actually necessary.

Cabinets Fit Kitchens

"Have your new cabinets planned to fit your kitchen, not the kitchen to fit the cabinets. That is the joy of wood—it is a flexible medium, and having the cabinets tailored to your individual measurements saves you much of that unnecessary expenditure.

"Our kitchens can be had in nearly fifty different color combinations." Members of the club toured the plant and the new showroom at the plant where a number of kitchens have been installed.

Serve Refreshments

One was very large and finished in North Wind birch and containing an electric Thermador cooking unit and oven. Another was a modish sized kitchen in dusty pink with blue formica working top illustrating the use of the "Handy Andy" with circular shelves, sliding glass doors and radius corner shelves. A small kitchen in white and green with tan formica work top featuring an electric dishwasher, gas refrigerator and gas stoves was also shown.

Features of the kitchens were demonstrated by Hilton B. Murray of the Murray Equipment company, of York.

Gifts, including reversible cutting boards and metal money kits were presented to the women. The committee on arrangements for the trip included Mrs. George H. Thrush, Jr., Mrs. Charles Pitzer, Mrs. Wilbur Dietz, Mrs. H. P. Frisch, Mrs. Delbert Gideon, Mrs. Joseph Heiney, Mrs. Edgar Markley, Mrs. David Oyster, Mrs. Thomas Peddy and Mrs. William G. Weaver.

WARRIORS LOSE FIRST TILT TO BUBBLERS 5-1

Gettysburg high school opened its baseball campaign by dropping a 5-1 decision to Boiling Springs Wednesday afternoon on the Recreation field.

The Warriors were limited to but one hit by Herr, Bubbler hurler, George Penn, who pitched a double to center in leading off in the fifth frame.

"Skip" Fisel hurled good ball for the locals, permitting but four hits and fanning nine. However, three of the hits were bunched in the third frame when Boiling Springs tabbed four runs to set up the decision. Dromgold accounted for a run in the opening inning for the visitors by smashing out a homerun.

Score On Miscues

Coach Howard Shoemaker's clan led the score in the last half of the first on a trio of Bubbler errors. Bill Signor was safe on a miscue by Fisel. Charley Ford popped out. Bill Singley was safe on a boot by Mellinger. Bupp forced Signor at third and when the throw to nip Bupp at first went wide Singley streaked to the plate. The rally expired when Bill Heyser grounded out.

Bud Ecker's outfit broke the tie in the third frame with four tallies. Singles by C. Wise, Mellinger and Walters, a pair of bases on balls and an infield miscue produced the rallies.

After the third frame Fisel hurled a hit ball while the best the Warriors could do was Penn's hit in the fifth.

Next Tuesday Gettysburg will open its South Penn league schedule by playing at Shippensburg.

May Defer Saturday Closing Of Exchange

New York, April 12 (AP)—The Wall Street Journal said today a decision on whether to close the New York Stock Exchange on Saturdays for the entire year may be postponed until this fall.

The Journal said: "A poll of member firms of the New York Stock Exchange reveals that about 65 per cent are in favor of closing on Saturdays all year around."

"But the members who voted against the move do some 65 per cent of the business on the Exchange. Result: A standoff."

"The committee conducting the poll report to the board of governors today but no action is expected. The 'big board' closes on Saturdays from June through September anyway, so a decision may be postponed until fall."

BILL TO DIE

Harrisburg, April 12 (AP)—A bill dividing third class cities into two separate groups according to size went back to a House committee today, apparently to die. The measure was recommended last night to the House committee on third class city government for "further study."

The recommendation was made by Rep. Harold G. Miller (R-Blair), co-sponsor of the bill, after meeting heavy behind-the-scenes opposition.

BULLETS TRIP JOHNS HOPKINS FOR FIRST WIN

The Gettysburg college baseball team scored its first victory of the season by defeating Johns Hopkins 7-3 here Wednesday afternoon behind the five-hit hurling of Jim Dyson.

Dyson had a shutout until the ninth when the Blue Jays put together two hits and a pair of Bullet errors for their runs. The Bullet right hander whiffed nine and walked three.

A triple steal with Johnny Schreiber scoring, produced the Bullets' first run in the opening inning. After one was out Schreiber singled, Leroy Bixby walked and Ron Fitzkee was safe on an error to fill the sacks, after which the triple steal was engineered.

Blades, who fanned the side in both the first and second frames, yielded three more runs in the second. With two out Dyson and Jones walked. Schreiber, Bixby and Fitzkee followed with singles for the tallies.

A double by Dudley, walk by Hare and singles by Reider and Dyson coupled with a fielder's choice and single by Bixby was good for three more runs in the third.

In the ninth inning Johns Hopkins averted a shutout on three runs via two hits and a pair of errors.

On Saturday the Bullets meet Eddie Gulan's fast stepping Albright team at Reading. Albright has won three in a row, blanking Muhlenberg Wednesday 3-0.

ROCKNE LEADS ALL COACHES IN GRID POLL

South Bend, Ind., April 12 (AP)—Notre Dame's Knute Rockne, acclaimed yesterday as football's greatest coach of all time, was 10 years ahead of the game in his era. And if he were living today, his scheming still would be 10 years in advance of coaching rivals.

Both claims came today from former players who helped Rockne reach the pinnacle of coaching success in the 1920's—the fabulous Four Horsemen, canny Frank Carideo and the present Fighting Irish coach, Frank Leahy.

Along with an all-time, All-America eleven named in a nationwide poll by the Associated Press, Rockne becomes a ranking candidate for the National Football Hall of Fame planned at Rutgers university. All nominated in the poll for the hall were second and third teams and Coaches Pop Warner, Stanford-Carlisle, and Alonzo Stagg, Chicago, runners-up to Rockne. The first-team selections were:

Ends—Don Hutson, Alabama, and Bennie Osterbaan, Michigan.
Tackles—Bronko Nagurski, Minnesota, and Wilbur (Fats) Henry, Washington and Jefferson.

Guards—W. W. (Pudge) Heffelfinger, Yale, and Robert Suffridge, Tennessee.

Center—Adolph (Germany) Schultz, Michigan.

Quarterback—Walter Eckersall, Chicago.

Halfbacks—Harold (Red) Grange, Illinois, and Jim Thorpe, Carlisle.

Fullback—Ernie Nevers, Stanford.

Warner Second
It's not difficult to imagine what a journeyman coach, much less Rockne, might have done with such a spectacular team. Rockne received four times as many votes in the poll of sports editors and broadcasters as his closest rival, Warner.

Sports Roundup

By HUGH FULLERTON, JR.

Cincinnati, April 12 (AP)—Willie Ketchum's summary of the Pamechon-Burgin fight, which had Cincinnati agog for a few days: "Good fight; we win easy and we do a good house." . . . Pamechon who speaks almost no English, won over the fans by bowing and smiling while they booed him before the fight and when they cheered afterward—and by his naive question to the boxing commissioner: "Excuse first please?" . . . The only guy who wasn't pleased was a writer who asked some questions in the dressing room and took a good poke in the stomach as Ray tried to show how he had fought.

REBOUND OFF THE PASTEBORDS

At the Kentucky basketball dinner someone told of a visit paid to assistant Coach Harry Lancaster during the NCAA tournament in Minneapolis. The visitors were a high school coach and his 6-9½ pupil. . . . Lancaster went to see Boss Adolph Rupp and explained: "I need a couple of tickets for a high school coach coming to see me." . . . Rupp protested: "But Harry, we've already given away all the game tickets." . . . Harry gently corrected him: "For a coach with a kid 6-9½, we got tickets."

Pennsylvania Commissioner Ox Dragosa has asked the NBA to withhold action against Ike Williams for not defending the lightweight title he won in 1949 because Ike has promised to defend it next August.

Prexy Arch Hindman of the NBA is expecting some sort of a decision from the member states next week, but he notes that Joey Maxim got his "defend or else" order only about a year after he won the title and Ike was told after two years to fight by March 31. . . . Clarence Hartwick says he considers Sickle's Image, now at Keeneland, as a derby prospect and he doesn't expect to run the filly in the Kentucky Oaks unless she fails to qualify for the bigger race. . . . Newspaper and radium staged a midjet auto race at Cincinnati Gardens last night. Promoter Edd Otto apparently thought that was an easy way to get rid of the jalopies at the end of the season.

THREE COUNTY LEAGUE CAGERS GAIN HONORS

Three players of the Adams County Scholastic Basketball league were given honorable mentions in the 1951 Little All-Pennsylvania scholastic selections announced today by the Associated Press. The choices are from Class B and C schools.

Charley Wishard, York Springs, top scorer in the league; Gerald Mummert, New Oxford, third in scoring, and Dromgold, Boiling Springs, who finished eighth, were those selected. All had been chosen to the county league all-star team by the coaches.

Team selections in the poll of sportswriters and sportscasters include the following:

First Team
Weidenhammer, Kutztown; Vaile, Creston; Craig, Fredonia; Mayers, Avalon, and Ferry, Freeland St. Ann's.

Second Team
Gustin, Mercer; Miller, East Greenville; Decker, Waymart; Drennan, Springdale, and Wilson, Mt. Joy.

Third Team
Student, McAdoo; Wetzel, Ashland; Cochran, Prospect Park; Ackerman, Irvin, and Anderson, Lawrence Park.

Among the honorable mentions, in addition to the Adams county league players, were Dennes, North York; Doremus, Middletown; Godfrey, York Catholic; Hale, Scotland, and Walck, Greencastle.

to his death in a Kansas plane crash March 31, 1931, produced five unbeaten, untied seasons, 105 victories, five ties and only 12 defeats.

But those who knew him best measure his greatness not by the record book, but by his skill as an ever-alert strategist and a fine teacher who used razor-edged psychology as a surgeon might a probing scalpel.

Current Irish Coach Leahy today declared "Rock always thought about five or 10 years ahead. If he were living now, he still would be five or 10 years ahead. Rockne did more to elevate the coaching profession and sell it to the American public than any other man."

Today's Talk

By GEORGE MATTHEW ADAMS

AS IS

Why can't we as rational human beings take things as they are and master them at the time and on the spot? We are bound to be confronted with difficulties and problems throughout life and we might as well get used to the fact and make the most of it.

I was reading from a favorite author recently and came to where he wrote about the disturbing song of a nightingale that began to sing about three o'clock in the morning and kept him awake. If a nightingale would be so kind as to wake me up in the middle of the night and sing to me I would not begrudge the interruption to my slumber!

We all know of those, and meet them quite regularly, who seem to be chronic complainers and with a yen for finding fault with everything. From year to year they never seem to change.

Yet nothing is ever so bad as they imagine. There is something deeply inspiring about that one who looks facts in the face, and no matter what the problem, cheerfully accepts the challenge, does the best he can, and keeps going forward.

Successes are born out of failures. It is rare that any situation is as bad as it looks to be, and if we take to it with courage and determination, we find ourselves on dry land with the sun shining all about us. We need difficulties to light the fire of incentive within us.

I came across the story of a woman who went to an English publisher with the manuscript for a book of poems, but the publisher turned the author down, with the remark that poems didn't sell. "Bring me," said the publisher, "a good cook book and I'll accept it at once." Undiscovered, the writer of poetry did as she was told and the cook book was such a success that the publisher got a generous streak inside of him and said that he would even publish her book of poems, which he did—and it never sold!

There is no more valuable lesson in all life that of learning to take things "as is"—and make the most of them. With such an attitude we are usually surprised at the progress made! We wake up in the morning habitually reborn.

Tomorrow Mr. Adams will talk on the subject: "Our Other I"

Now give them back into the ground.

"Dead as ashes!" did you say?

Well, next autumn they'll be found

Bright and beautiful and gay.

Some on barren soil may fall

As did others years before

Some superbly straight and tall,

Fit to bloom will surely grow.

Strew them as the winds would do.

Should unpacked they remain

Life will stir in them anew,

Touched by springtime's sun

and rain.

Here lie bud and leaf and stem.

"Dead as ashes!" did you say?

With the warm earth cover them.

Seeds that throb with life are they.

DOUG LEAVES TOKYO OFFICE FOR LAST TIME

Tokyo, April 12 (AP) — General MacArthur left his headquarters in the downtown Dai Ichi building after a one-hour visit to his office tonight, perhaps his last.

One of MacArthur's honor guard said the general went to clean out his desk.

A large crowd of Americans and Japanese had waited patiently for hours for a glimpse of the five-star general.

MacArthur strode out of the building at 8:10 p.m. 70 minutes after he had entered.

Earlier he had talked with his successor, Lt. Gen. Matthew B. Ridgway, at his residence.

Whitney To Resign

At his side as MacArthur left the building was his right hand man, Maj. Gen. Courtney B. Whitney, who asked to resign from the army when his chief was fired by President Truman.

MacArthur was chatting with Whitney as they walked from the building. He paused to look at the crowd.

A Russian officer, notebook in hand, stood alone on the opposite sidewalk.

Photographers' flashbulbs popped, lighting MacArthur's austere face.

The five-star general smiled slightly, spoke to the officer of the guard, Lt. Robert Downey, and entered his sedan. Whitney climbed into another car.

Officer Cries

Downey, of Pottsville, Pa., later said MacArthur had remarked, "The flashbulbs reminded him of artillery."

Downey said he had been officer of the honor guard three years. Tears welled in his eyes as he watched MacArthur's sedan drive out of sight.

The officer estimated 500 persons watched MacArthur's exit. "That's the biggest crowd I can recall," he said. "We usually keep them on the sidewalk but they were lined up across the street tonight."

"It really has been a hectic day here."

Camp Pickett, Va., April 12 (AP)—It took three burly sergeants to escort umpire Private Noel B. Fuquay off the field after a softball game here. Seems the umpire had called some questionable plays. "I call 'em as I see 'em," Fuquay told his critics. Today, the army revealed that Fuquay is being given a medical discharge. The reason? Poor eyesight.

Truman Has Had Six Big Years As Chief Executive

By JAMES MARLOWE
Washington, April 12 (AP)—President Truman has been in the White House six years today. They have been tremendous years, as tough as any president ever faced. How has he made out?
This can only hit some high spots. When he succeeded President Roosevelt, the war was still on, in Europe and Asia. He led the country to peace in both places and then into the reconversion to peace and the greatest prosperity the country ever had.
Popularity Slipping
Now he is leading the country back into a period of preparedness or war. When he entered the White House six years ago he had great popular support. Now the polls say his popularity has slipped away down. It is not the first time his popularity slipped. It hit a low back in 1946 elections when the Republicans won control of Congress for the first time since 1932.
He surged back, when almost no one thought he had a chance, to a stunning victory in the presidential elections of 1948. He may come out of his present slump. It would be a sturdy prophet who would predict otherwise.
Debatable Question
But while Mr. Truman sat in the White House and the country grew at and rich after the war, communism spread like a flame in other parts of the world. During the war about 190,000,000 were under communism in Russia.
Now the number is about 735,000,000 counting China, the satellites and part of Korea. And at this moment this country and its western allies are girding for what may be World War III with the Communist allies.
Whether Mr. Truman, short of war could have prevented the spread of communism anywhere that it has taken over is, of course, the subject of much debate, particularly when China is involved.
But it may be a century before the historians, with the benefit of records and the perspective of 100 years, can attempt to say with any

3 DOOMED MEN GIVEN REPRIEVE FOR NINTH TIME

Bellefonte, Pa., April 12 (AP)—Three convicted killers have won their ninth reprieve from the electric chair.
David Darcy, 26, Harold Foster, 26, and Harry Zietz, 21, all Philadelphia, were to have been executed at 12:30 a.m. today for the slaying of William Kelly in the holdup of a tavern near Doylestown, Pa., in December, 1947.
But Gov. John S. Fine yesterday stayed execution for the fourth time in ten days. The condemned men were notified six hours before the time fixed for death. The new reprieve runs until May 7.
The latest reprieve came after the U.S. Circuit Court of Appeals ordered a stay of Darcy's execution so his attorneys could appeal to the U.S. Supreme court.
Earlier Darcy's appeal for a writ of habeas corpus was turned down by the federal District court in Scranton. The state Supreme court also declined to issue a writ.
The U.S. Supreme court twice has denied appeals for a new trial for Darcy.
Charles Margiotti, former state

attorney general and counsel for Darcy, argued that his client had been denied his constitutional rights and had not been given a fair trial.
Warden Breaks News
Dr. J. W. Clady, warden at Rockview penitentiary, broke the news to the condemned men as they sat in their death row cells talking to prison chaplains.
All fell silent for a few moments. Then Darcy said:
"Thank you very much. We have much to be thankful for."
The three probably will stay in death row pending disposition of the appeal by the Supreme court.
The state high court said yesterday it could "find no ground" for issuance of a writ of habeas corpus.

Informal Dresses To Serve Dual Role

One dress for informal daytime wear. The same dress for gala evening events. It's as much fun as magic and it's the key fashion of spring '51.
It may be a dress with a tiny bolero or snug-fitting jacket that when removed reveals a gay print blouse t.p. Or it may be a dress with a suit cutout in a formal fabric such as tulle or pure silk with, "neath the jacket, a baretop bodice of lavish lace."
Or it may even be a cheerful cotton dress you'll wear with its

DINNER GUESTS ROUTED BY FIRE

Camden, N. J., April 12 (AP)—Weber's Hofbrau, South Jersey night spot and restaurant at Central Airport near here, was destroyed by fire last night.
The fire which broke out shortly after the dinner hour, destroyed an estimated \$30,000 worth of liquor and food stocks.
Camden's Mayor George E. Bruner, speaker at a banquet being given in the restaurant, was one of nearly 400 persons forced to flee. All escaped without injury but three firemen were hurt.
Two units of the Camden Fire department joined volunteer companies from eight communities near the Pennsauken township restaurant in fighting the fire.
The flames spread into the main

jacket or bolero top for morning shopping and by doffing the jacket later in the day reveal a dress perfect for sunning or dancing.

Seek Expansion Of Labor Studies

Harrisburg, April 12 (AP)—A new House bill sought today to expand the labor-management education program conducted by Pennsylvania State college.
A measure, submitted by Reps. John T. Welsh and Martin J. Taylor, both Philadelphia Democrats, would establish a special advisory committee to direct the expanded program.
The committee would be composed of labor and management repre-

sentatives as well as private citizens. They would recommend educational policies.

The bill would authorize appropriation of \$250,000 to conduct the expanded program. Of this amount, \$75,000 would be used for purchase of teaching aids and research work, with the remainder to be made available on a matching basis with labor and industry for teaching costs.

Jacksonville, Fla., April 12 (AP)—Jesse E. James, Jr., 51, who says he is an adopted granda of the bandit by that name, was jailed here last night on a charge of practicing medicine unlawfully. State narcotics inspector R. R. Bellinger said, per-

DUFF REMINDS PEOPLE OF VOTE TO SET POLICY

New York, April 12 (AP)—Senator James H. Duff (R-Pa.) says it was "regrettable that the dismissal of General MacArthur had to take place" but "if dismissal was the only way to accomplish unity, then it had to be done."

For lack of unity, he believes, "was harmful to the best interests of the nation."

Here to address the Brand Names Foundation, Inc., last night, Senator Duff said:

"Supreme authority in the armed forces must reside somewhere. Under the Constitution of the United States, it resides in the President of the United States as commander-in-chief."

Power of Ballot

"To permit a continuous dispute as to authority and military policy at the most critical juncture in our history is unthinkable."

"Whether we agree with the political judgment of the President as commander-in-chief is entirely another proposition that can only be resolved by the American people in the election of the next President of the United States."

Earlier, in Washington, Senator Duff said, "When the commander in the field publicly and repeatedly disagrees with the commander-in-chief and the joint chiefs of staff, he thereby creates an impossible situation. That had to be resolved."

But Pennsylvania's other Republican Senator, Edward Martin, held a different opinion:

Weakens Confidence

"The dismissal of MacArthur cannot fail further to weaken the confidence of our people in the Truman administration."

In his speech here, Senator Duff said Russia is determined to go through with the war in Korea "even if world war three comes thereby."

This is the most critical period in United States history, he continued, because the Soviet Union is building up military strength aimed at war with this country.

"With our air closeness to Europe, there can be no safe fortress here in America," he said. "We must be prepared for an eventuality, because Russia may attack any hour of the night or day without warning."

Scores Complacency

Returning to the theme which he has emphasized before, he castigated what he called American complacency over the Korean war. This smugness, he said, is apparent in a policy of "business and politics and everything else as usual."

The Senator said the plan to defer college students of high grade from military service is "another example of the confusion that exists in the country and of the resentment that grows out of lack of proper direction."

In his words, the plan is "an un-American thing."

"I am sure our people would not tolerate putting bright college students on a pedestal," he asserted, "and allowing the rest to remain in a subordinate position in the matter of service to their country."

Korean War Dead Arriving Today

Washington, April 12 (AP)—The U.S.S. Alfred Victory is expected to arrive at San Francisco today with the bodies of 97 men who died in the Korean war. Eight are those of Pennsylvanians.

The Defense Department said yesterday the bodies will be sent with an escort to the place designated by each next of kin, who have been notified.

The Pennsylvania casualties, all army privates unless otherwise designated, and their next of kin include:

Carl P. Brooks, William P. Brooks, Coatesville; Alfonso A. Durnell, Mrs. Anna M. Finney, West Chester; Corporal John Swisher, army, George Swisher, Philipsburg.

Westinghouse Being Crippled By Strikes

Pittsburgh, April 12 (AP)—If wildcat strikes continue, the East Pittsburgh plant of Westinghouse Electric corporation may be shut down.

That's the warning from Vice President T. I. Phillips to nearly 17,000 employees at the plant. About 12,000 are members of Local 601, CIO International Union of Electrical Workers. Phillips' warning came just eight days after Local 601 held a one-day walkout to protest the lay-off of a union steward.

Phillips said the walkout was the 33rd since the beginning of the year despite a contract agreement against any kind of work stoppages.

M'ARTHUR IS PREPARING TO RETURN TO U. S.

By RUSSELL BRINES

Tokyo, April 12 (AP)—General MacArthur made plans today for a return soon to the United States—ready, if invited, to air before Congress the views that got him fired by President Truman.

The five-star general kept his public silence but his right hand man gave the first inkling of how staunch MacArthur's defense would be.

Maj. Gen. Courtney B. Whitney, MacArthur's closest adviser, issued a statement saying his deposed boss felt he had violated no Truman directives.

Whitney himself asked release from the army so he could leave Japan with MacArthur.

Whitney Retiring

The general feels that he has complied meticulously with all directives he has received, not only recently, but throughout his entire military service," Whitney said.

Whitney earlier had announced he has asked the army for retirement from his post as contact man with the Japanese government in handling the occupation.

MacArthur visited his office in the downtown Dai Ichi building for one hour tonight. One of his honor guard said the general went to clean out his desk.

A large crowd of Japanese and Americans watched outside as MacArthur, smoking a pipe, strode from the building and entered his car.

Ridgway Confers

Earlier, Lt. Gen. Matthew B. Ridgway flew in from the Korean battlefield and went into immediate conference with MacArthur at the five-star general's residence in the U.S. embassy. Ridgway was accompanied by Secretary of Army Frank Pace. After the talk, Ridgway left for Korea.

Ridgway arrived after turning over his U.S. Eighth Army command temporarily to Lt. Gen. Frank W. Milburn. Milburn will serve until the arrival in Korea of Lt. Gen. James A. Van Fleet, veteran of two world wars and head of the American mission that advised the Greek government forces in their triumph over Communist insurrection.

President Truman announced the new command changes for Generals Ridgway and Van Fleet simultaneously with the removal of MacArthur. Whitney's statement defending MacArthur followed by only a few hours President Truman's broadcast address from Washington.

Offer Rent Free On Sunless Days

St. Petersburg, Fla., April 12 (AP)—Members of the St. Petersburg Apartment Home Owners association won't charge for any day the sun doesn't shine here in May or June.

"We're going to lean over backwards on that proposition, too," says Peter Stein, Jr., association president. "The advertising in handing back a day's rent now and then should be worth more to us than the cash."

He explained the apartment owners want to call attention to the attractiveness of St. Petersburg in the months after the end of the regular winter season here and when the northern resorts come into their own.

The idea is modeled on the one popularized by the St. Petersburg Evening Independent, which gives away its early street edition if the sun hasn't come out by press time.

Owlett In Favor Of "Broad Base Tax"

Wilkes-Barre, April 12 (AP)—G. Mason Owlett, president of the Pennsylvania Manufacturers' association, favors a broad base tax program to pay for the new state budget.

"We have to have some new taxes, and I don't think there is any thing fairer than a broad base tax," he said last night. "We are against a sales tax," he added.

Owlett spoke at the 36th annual dinner of the Luzerne county Manufacturers association, honoring Andrew J. Sordoni, state secretary of commerce.

"We have gone over Governor Fine's budget very carefully," Owlett said. "There are some things that could be done away with, but there are other departments where we felt the Governor had cut them short. That is why we feel the broad base tax is a fair one—because Governor Fine has cut his budget to the core. If we don't have a new tax, where is he going to get the money proposed in the budget?"

GETS HHFA POST

Washington, April 12 (AP)—Edward E. Wendell has been appointed acting representative for region two of the Housing and Home Finance agency. Region two headquarters at Philadelphia includes Delaware, District of Columbia, Maryland, North Carolina, Pennsylvania, Virginia and West Virginia. The HHFA said yesterday Wendell and four other acting representatives were named to handle field activities arising out of defense responsibilities of the agency. Others will be named later.

OBSERVER SAYS TRUMAN FACED HARD PROBLEM

By DEWITT MACKENZIE (AP Foreign Affairs Analyst)

The average citizen probably is finding it difficult to view dispassionately President Truman's ouster of General MacArthur.

As an admirer of MacArthur's great military record, which gives him a high place among the famous generals in history, your columnist can understand the average citizen's position. Like many of my readers, I wish that the chief executive could have found some other method of solving his problem.

Still, we are bound to recognize that Mr. Truman did have a problem. This was, as he states, MacArthur's failure to give "wholehearted support to the policies of the United States government."

Tha. brings us to the pith of the whole controversy. Even if MacArthur disagreed militarily with his instructions, he had no right to refuse to comply, because under the Constitution the President is the commander-in-chief of all the armed forces.

Had Other Recourse

But, you demand, supposing MacArthur felt sure he was counting disaster to follow Washington instructions, must he still "carry on?" No, he could express his views to the President and if that didn't work he could resign his command and return to America for a showdown.

Failure to support administration policies, however, was dangerous and might be disastrous. Under our form of government the President and his Secretary of State are

responsible for foreign policies, and some highly important ones were involved in the Asiatic operations.

For example, two of our great European Allies, Britain and France, who have vital interests in the Far East, have been greatly worried over some of MacArthur's unauthorized pronouncements. One of these was the commander's advocacy of using Generalissimo Chiang Kai-shek's large army of Nationalist troops on Formosa for an invasion of continental Red China.

Others Protest

London and Paris protested to Washington against pursuing any such program, on the ground that it would be likely to precipitate an all-out war with China, backed by Soviet Russia. This likely would mean World War III. And on that basis America turned thumbs down on the adventure.

This was only one of numerous incidents which had plagued the Washington administration, and its Allies. MacArthur's view that Asia, rather than Europe, is the paramount theater in the struggle against bolshevism has caused grievous heart-burnings among the Western democracies.

So, even if MacArthur has been right in his military judgment, he has been wrong in not deferring to Washington. The sum and total of this imbroglio is that some distrust

BATTLE WITH FRUIT PESTS IS UNDERWAY

Red mite eggs on the bark and adults of the two-spotted mite under the rough bark are plentiful in most orchards. County Agent M. T. Hartman announced today in sending out a schedule for a delayed dormant spray on apple.

Scales have been observed in some orchards, he added. Where no DN dormant spray was applied green and grain aphids are plentiful on the buds. Scab spores, Hartman reported, are developing more slowly than last year, but will be ready to cause infection soon after the foliage around fruit buds shows 1/2 inch of green leaf.

Two formulae are recommended in the spray letter sent by Hartman to the county's apple growers. For those who applied regular Dinitro spray in the dormant a 2-2-100 Bordeaux, made up of two pounds copper sulphate and two pounds of fresh spray lime per 100 gallons of spray, plus two gallons of miscible superior oil, should be used.

Those who do not want to use oil should apply either a Bordeaux 2-2-100 or 1 1/2 gallons of liquid lime sulphur per 100 gallons of spray.

Another letter, sent at the same time, provides a spray for the pink

and full bloom periods to prevent brown rot in peaches. To avoid brown rot growers should remove all mummified peaches from trees before any blossoms open, cultivate the peach orchard before bloom in order to prevent mummies on the ground from producing spores. Spraying should start as the first

blossoms open and continue at five to seven day intervals where brown rot is a severe problem. A wettable sulphur should be used either 12 pounds flotation paste sulphur or eight pounds of magnetic 70 sulphur paste per 100 gallons of spray. In the pink spray growers may use 1 1/2 gallons of lime sulphur per 100

4th Division Gets Orders For Europe

Washington, April 12 (AP)—The 4th Infantry Division at Fort Benning, Ga., has been ordered to Europe to become part of Gen. Dwight D. Eisenhower's European defense army. A Defense Department spokesman said Wednesday the division has been alerted and may be on the way in about 30 days.

This will be the first announced reinforcement for U. S. forces in Europe since Eisenhower assumed command of the Western defense forces. Two divisions already in Europe previously were assigned to these forces.

Three more, in addition to the 4th Infantry, will be sent to give the United States a six-division force in Western Europe.

The Defense Department did not disclose the date or the port from which the 4th Division will embark. The three divisions that are to follow also have not been identified.

WOMAN KILLED

Newport, Pa., April 12 (AP)—An auto with its accelerator stuck to the floor rammed into a telephone pole Tuesday night, killing one woman and injuring four others. The victim was Mrs. Mary Barry, 63, driver of the 1935 model car. She and her four passengers, all from

AAUW MAY AIR 'LEFT' CHARGES

Atlantic City, N. J., April 12 (AP)—Charges of "left-wing leanings" leveled at the American Association of University Women may be aired officially before the convention ends. A parliamentary fight on the accusations started shaping up Tuesday.

Newport, were on their way home from a Sunday school meeting.

day and gained momentum overnight under the leadership of AAUW members from Oshkosh, Wis.

Marjorie Temple, national legislative associate and AAUW staff member, promised "any individual delegate" the opportunity to propose "any measure" from the floor at general sessions today.

Her statement followed a drive to unseat the present leaders of the association by the Oshkosh group which claims the AAUW's national legislative program backs only those laws "of the spend-more, give-away more, tax-more type."

Mrs. Robert Murray of the Osh-

kosh delegation said the group is of the opinion there is "an unquestionably left-wing leaning among present leaders of the organization" and favors doing away with the AAUW's legislative committee.

The Oshkosh delegation expressed disapproval of the AAUW's lobbying activities in Washington. They said the national legislative committee does not necessarily represent the majority of AAUW members.

Alyce Chester, 34, because of the un-failing service and devotion she gave his late wife, is honeymooning with the nurse today.

They were married at the First Congregational church on Tuesday with relatives and a few intimate friends attending. The Rev. J. Eugene Sill officiated. Then the newlyweds took off in Kaiser's private plane for Miami, Fla., and a two-week honeymoon in Jamaica.

SEEK SUPPORT FOR REVIVED INCOME LEVY

Harrisburg, April 12 (AP)—The administration, successful in reviving the once-defeated income tax bill, sought today to convert enough insurgent Republicans to assure its passage next week.

The Republican House leadership failed to muster enough votes to follow through on a decisive vote yesterday. Only 103 Republicans indicated willingness at a closed caucus to go along with the controversial measure. A constitutional majority of 105 is needed.

Speaker Herbert P. Sarg (R-Erk) said efforts would be intensified to persuade some of the 17 dissident Republicans to join the ranks of the administration next week.

Two GOP Victories

The GOP won two thumping victories over Democrats in a hectic House session yesterday. A move by Democrats to require public hearings on the one half of one per cent income tax was beaten down 119 to 88.

Then the administration triumphed by a 115-91 to return the measure to the House agenda. Of the GOP membership, only the four-member Delaware county delegation and Rep. Edward S. Swartz (Dauphin) turned in against that move.

The 87-vote Democratic minority stood solid despite previous reports that Reps. Albert S. Readinger (D-Berks) and Robert A. Price (D-Lackawanna) would swing over to the Republican side.

Two hours of acrimonious debate was featured by an indirect charge of attempted bribery made by Rep. H. G. Andrews, Democratic floor leader. "Without exception it is my prediction that not a member of the minority (Democratic) group will vote for reconsideration of this bill, and notwithstanding the offer of cash money will they vote for the bill," said Andrews.

Won't Name Names

The statement brought a sharp retort from Rep. Charles C. Smith, Republican floor leader, who jumped to his feet to say: "I feel the gentlemen from Cambria (Andrews) has made a direct accusation and I can assure him I know nothing of that."

Andrews declined to elaborate when newsmen asked him to say who made a money offer and to whom. The Democratic leader confined his attack on the income tax bill to the Republican failure to call public hearings on the measure designed to raise \$119,000,000 in the next two years.

Gov. Fine contends the money is needed to balance his projected \$1-220,000,000 budget for the two-year fiscal period starting June 1.

Apart from the tax fight, developments in the Legislature were these: The Senate received a bill to place

a ceiling of \$125 a month on relief payments to a family, regardless of size. Single persons would be limited to \$50 a month. Sen. Fred P. Hare, Jr., (R-Somerset), one of the sponsors, said the measure would save the state \$15,000,000 to \$20,000,000 a year.

A measure passed by the House would authorize preparation of spe-

cial tax assessment lists in local communities. It would permit local units to obtain assessment lists of all residents over 21. The Legislation went to the Senate.

Meanwhile, the administration has a job cut out for itself in whipping GOP rebels into line on the income tax levy.

Rep. Delbert W. Dalrymple (R-Erie), who voted for the tax last week and again for its reconsideration yesterday, disclosed that he may change his vote if it comes up again next week. Dalrymple said he may act in retaliation to what he said was a concerted attempt by GOP House leaders "to keep other vital bills" in committee "if they want me to scratch their back, they've got to scratch mine, too," said Dalrymple, a railroader in private life.

Curtains Enhance Window Interiors

Tasteful curtain treatment adds much to the interior beauty of the home. Interior designers say it is essential that the windows harmonize with the furnishings and that one should never overdo them. Any look of skimpiness should be avoided.

Curtains should hang to the window sill, to the bottom of the apron beneath the sill, or to the floor; never stop somewhere between apron and floor. Straight-hanging curtains are suitable in almost any room. Use of ruffled draperies calls for discretion. Too-wide and two-full ruffles in a modern setting create a sense of clutter.

Rooms appear larger if draperies match the wall color. With figured wallpaper and floor covering, use plain draperies of the predominant

THREAT OF WAR ALWAYS AT HAND IN WORLD TODAY

By DEWITT MACKENZIE
(AP Foreign Affairs Analyst)
Many will be made anxious but none need be surprised at the statement by Speaker Rayburn of the U. S. House of Representatives that "we are in terrible danger" because the Russians are building up troop concentration "here, there and everywhere."

The creation of Russian military strength has been proceeding with increasing intensity ever since the Bolsheviks came to power more than a generation ago. It is a natural corollary to their world revolution for the spread of communism. The late war gave them a chance to strengthen their positions in both Europe and Asia. It's not strange now to find them deploying military forces at strategic points for eventualities, especially in the Asiatic theatre where numerous Red upheavals, including the Korean war, have developed.

Everybody Preparing
Does this mean Russia is getting ready to launch another major war? Well, it means she is getting ready for possible war. So are the democracies getting set for contingencies. And when two opposing forces are, so to speak, drawn up in battle array, the situation always is precarious.

However, Russia has given no indication she wants big-time war at the moment. Her cold war operations are too successful to warrant discarding them for an all-out conflict.

Everything now happening was written for us to read when Stalin came to power on Lenin's death. At that time Leon Trotsky, who tried to grab Lenin's cloak of leadership himself, wanted to go all-out in launching a bloody world revolution, but Stalin vetoed this idea.

The astute Stalin decreed that first Russia must be made powerful both industrially and militarily, and he forthwith set about achieving this. Trotsky went into exile and in due course had his brains beaten out with a spade in Mexico.

Stalin organized his successive five-year plans for industrial development. And he started building a powerful fighting machine. He foresaw that a second world war was brewing, and he wanted to be prepared to take advantage of it. Ultimately he made the conflict possible by signing the non-aggression pact with Hitler.

Russia unexpectedly got dragged into the war. However, Stalin even capitalized on that by virtually annexing the whole of Eastern Europe and establishing powerful forces not only in the satellite states but in strategic Eastern Germany.

Of course the situation is terribly

dangerous. Still, our greatest immediate peril may lie in the potentialities of the Asiatic situation, if we should allow ourselves to be drawn into a major war with Red China, then another world conflict would be almost inevitable.

South America is the original home of potatoes and quinine, but today the center of potato culture is northern Europe and Indonesia has almost a monopoly on quinine production.

superstition in this enlightened age

Do you still bury a dishrag to remove a wart on your finger? Perhaps not, but some do. Yes, even asafetida is still worn on a string about the neck to ward off illness.

These cases are extreme, but surprisingly superstitious notions about disease and treatment are held in this enlightened age.

Before you accept secondhand statements that hint of witchcraft, consult your physician. He alone is competent to evaluate methods of prevention and treatment of disease.

RAINCOATS HAVE FASHION FLAIR

Rain or shine you'll wear your raincoat this spring and wear it with a fashionable flair.

For, this season more than ever, raincoats are styled to look like your smartest, most comfortable casual coat as well as to give ample protection from a downpour.

Unusual and new fabrics for rainwear are foremost in pyramid, fitted and optional-belted styles similar to sunny day coats.

There are lightweight fabrics with

nylon in a crisp, changeable color weave or a coat of reversible satin that can be worn with the red or black side up as your mood dictates.

Other interesting rainwear fabrics include corduroys in red, gold, lime, lilac, aqua, honey and royal; suede-surfaced-rayon in brilliant colors such as orange and yellows and a classic gabardine raincoat with an ombre-striped lining of rustling taffeta.

Seek Ruling On Seniority Case

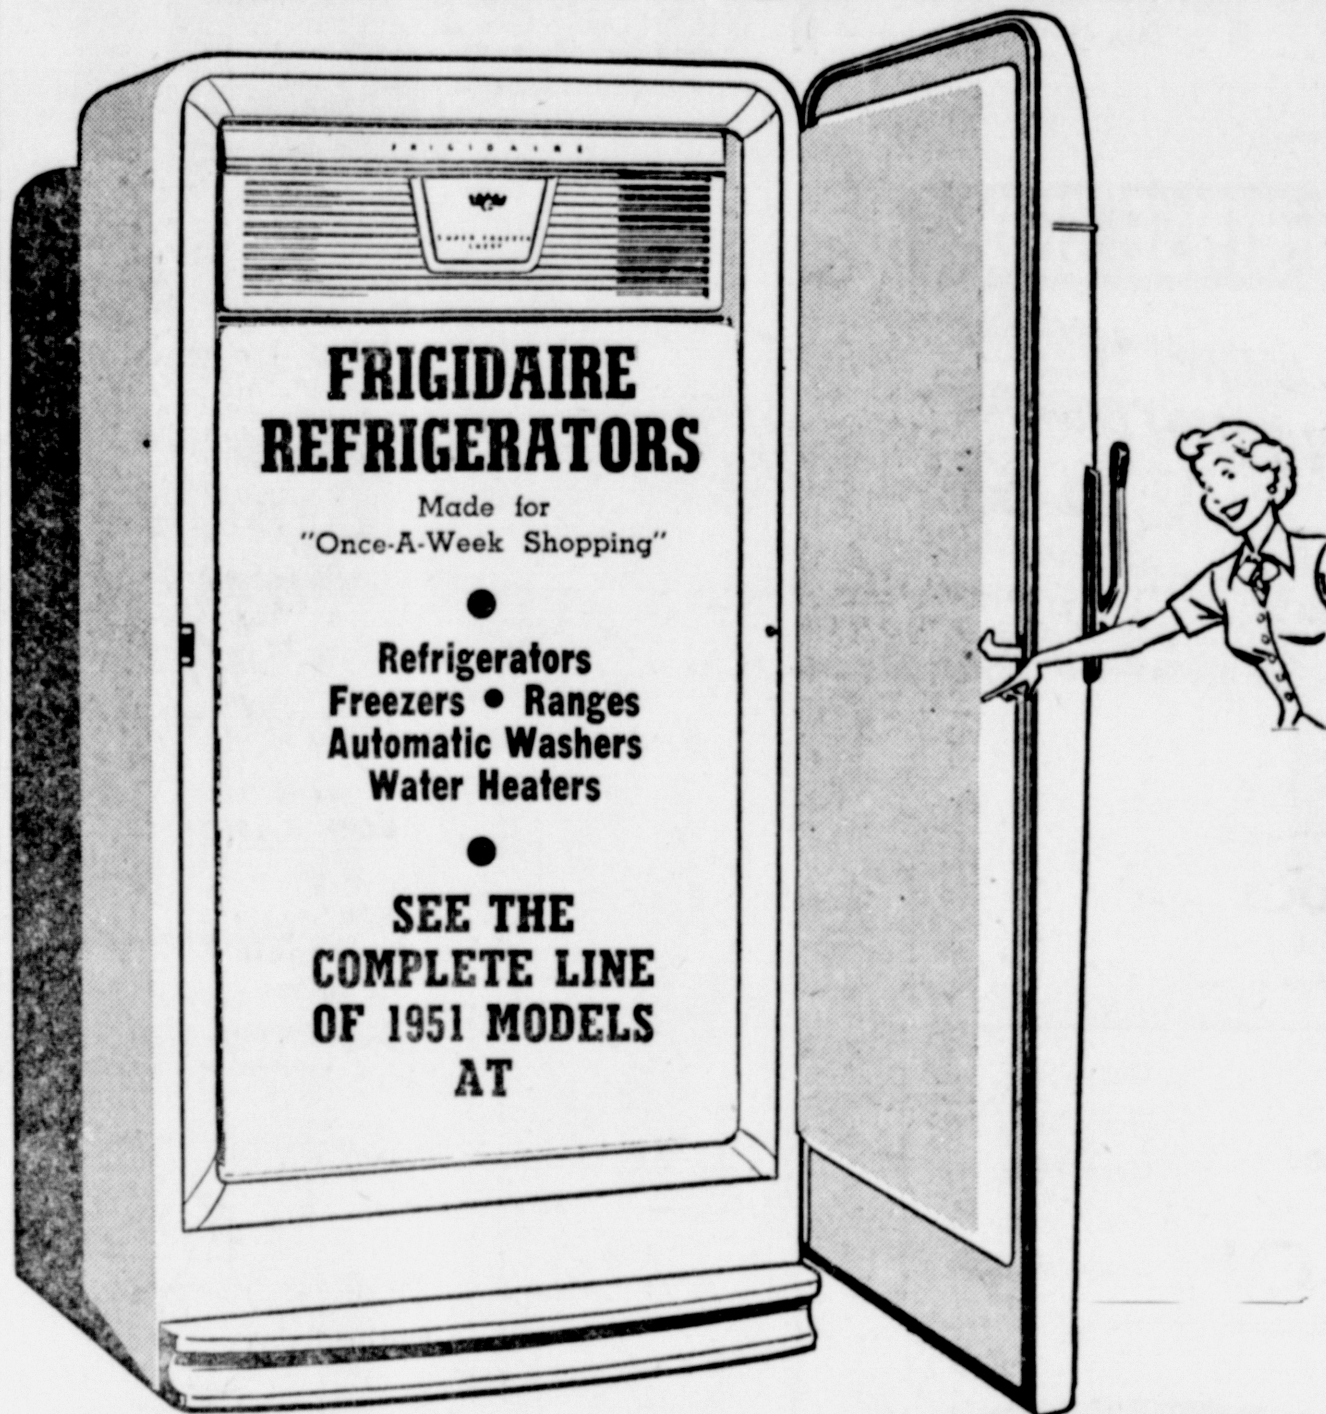

Philadelphia, April 12 (AP)—Does an employee who rises from the

ranks to a supervisory position lose his union and job seniority rights if he is demoted? That is what the state Supreme court was asked yesterday to decide.

A ruling was sought by three former, and still jobless, employees of the Vulcan Iron Works of Wilkes-Barre. The men are Martin F. Haefele, Edgar Hares and Clarence Lord.

In bringing the case before the high tribunal the three seek reversal of a judgment in Luzerne county Common Pleas court which ruled they lost their seniority rights under the union contract when they accepted promotion to supervisory positions.

MY PARENTS MADE A GRAVE MISTAKE!

BOTH Mother and Dad were alert and active right up to the days on which they died, and neither of them anticipated death at the age they had reached when it struck. They always philosophized that there was plenty of time to look to the future. But disaster struck earlier than any of us imagined it might. Consequently, I was left with no pictures to remember them by. I had some small snapshots, but enlargements never brought the true images of them back to memory. No matter how hard the photographer tried, he couldn't capture the warmth of a direct portrait, when he attempted to enlarge those snapshots. I miss the warmth of a memory that could have been retained so easily.

I'M NOT GOING TO REPEAT THAT ERROR

RIGHT now, I'm going to have my portrait made at The Lane Studio. Perhaps my children haven't even thought about that day when they will want such a picture. I don't recall that I did that kind of thinking when my parents were living. One thing I do know — I would appreciate such a portrait of my folks, now. So, while I'm still in the Spring of middle-age, I'm going to be certain that my children have the opportunity to keep their memory alive. I've made my appointment with tomorrow, an appointment today with...

SPRING SUITS ARE TAILORED BUT SOFTENED

Your new spring suit has a finely tailored look with attention focused on detailing and trim neatness.

From shoulder to hem it is slim in line, relieved, this season, of its severity by a gently arched hipline, novel and eye-compelling detailing and a soft or silky-appearing fabric. Jacket lengths are approximately an inch longer than last season with emphasis on the tunic style, often 32-inches long and cut in almost a straight line with your slim skirt. Other, softer versions of the tunic jacket are a trifle shorter and have fullness below the waistline.

Man Tailored Suits
Back in fashion's favor is the man-tailored suit. The one-button style predominates, but unlike past years, the new version is softened by feminine collar and pocket detail.

Tiny peplums on the sides, center front and back of fitted jackets can

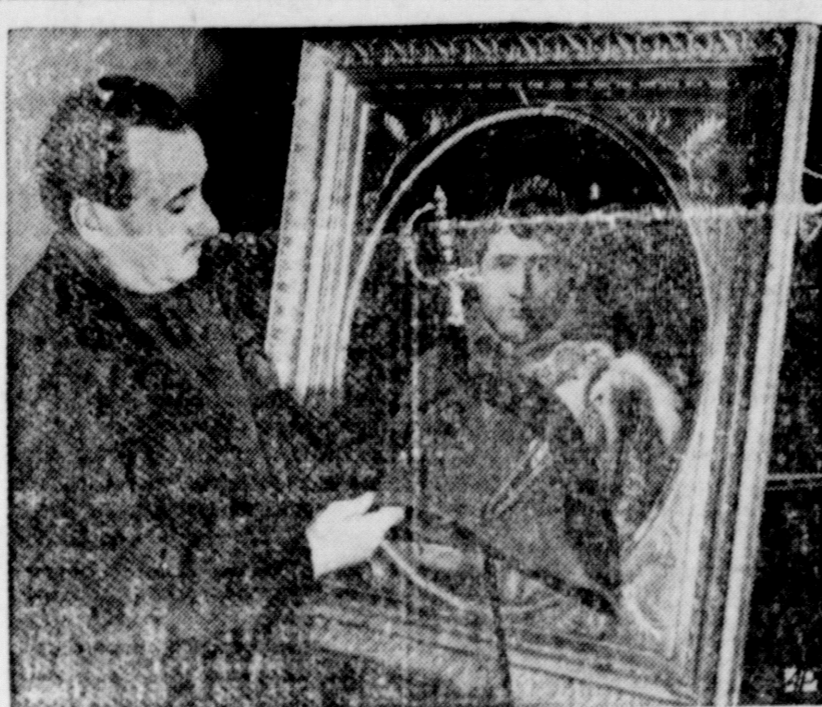

be seen adding flattering accent to the arched hipline look.

Outstanding versions include a circle peplum which is placed at each side of the hipline, a peplum that stands away from the jacket and often contains pockets, the apron peplum which appears in the center front of the jacket and the fishtail peplum, placed at the front of a cutaway jacket.

The 3 and 4-piece suit is also due to become a spring fashion leader. It may have 2 jackets or 2 skirts plus a vestee in matching or contrasting colors or patterns. It may be a neatly tailored suit complete with matching or contrasting jacket. It may be the 2-skirt suit or perhaps a suit with its own blouse in a solid, print or striped crisp fabric.

Oblique Accents
Asymmetric lines gain new dash for spring in necklines or hiplines which just past the center line, in skirts and jackets that wrap to a side, in strapping or pockets that effect an oblique outlook by being placed at one yoke or one hip and by curved closings.

Refreshing fashion notes for new suits are the cardigan or collarless necklines which can be folded back into neat little lapels, the many scarfs and stoles either attached to

suits, or available separately in maker touch. Your skirt, of course, is narrow but easy to walk in due to kick pleats and the trumpet silhouette interpreted with pleats all around the

hemline or gores which widen below the knees. Other means of keeping suit skirts slim yet comfortable are with rows of back buttons, slits or tiny multiple pleats.

Flannel Vests

The soft fabrics that promise to be your primary choice in suits this spring feature flannel looking its newest in pearl grey and grey blue and its most sophisticated in light brown. Gabardine, ever your choice for spring, reigns once more and looks freshest in navy which is also the number one color of the new season.

In the shimmering fabric families, silks and rayons are expected to take over. Silk taffeta, imported suitings with a surah texture, heavy-weight shantung and faille and rayons in faille, taffeta and ottoman carry their weight for spring in your more dressy dinner and theater suits.

The richness of these shimmering fabrics will be pronouncedly accented, in many instances with satin faced lapels.

More insects may be found in a single square mile than there are people in the world, says the Book of Knowledge.

MAKEUP SHOULD MATCH EVENTS

Town, country and evening occasions require make-up as distinctively different as the costumes you select for each occasion.

If you're planning to spend the day in town your face should be made up accordingly. This means a light powder base, powder just a little deeper in tone and rouge applied very lightly, if at all. Eyebrows and lashes should be kept as natural looking as possible. And a good daytime color of lipstick, such as pink, coral, orange or a blue-toned red, depending on your costume, should serve as a striking accent.

Should Be Natural

If yours is a life in the country, then let your make-up reflect your way of living. Both powder base and

powder should be natural with just enough rouge added to give the effect of a natural bloom. Use mascara lightly and if necessary, darken your eyebrows. Lipstick, in a blue-red or orange-red tone, depending on the 30 Years' War.

SOME POINTS TO KEEP IN MIND THRU CONFUSION ON M'ARTHUR

Washington, April 12 (AP)—Here are a few main points to keep in mind before the uproar and confusion over the firing of General MacArthur get worse, which they will. A lot of hot stuff already has been

thrown into the steaming pot, and when heatedly stirred, won't make for clarity of thought. Strategy, civilian control over military command, emotions, and politics.

But first there's the talk in Congress of impeaching President Truman for firing the general. At this point it comes only from Republicans and is apparently strictly sound effect stuff.

One of the most powerful Republican Senators told a reporter it was said more to "scare" Mr. Truman than anything else. He pointed out it probably would be impossible to do. On a question like that, he said, the Democrats and Republicans would be likely to split along party lines
